LET'S EMBARK ON A

GOURMET JOURNEY

OUR STORY

Founded in 2013 in Singapore, Greyys is a fast-growing premier food and beverage distribution company with a strong focus on wholesale orders, particularly to the hotel, restaurant and café (HORECA) industry. Greyys was acquired by Maison Denis in 2022, thus offering the opportunity for greater integration of premium products and leveraging on its distribution and marketing strengths.

Maison Denis engages primarily in three market activities: Food and Beverages (F&B), Health Sciences, and Consumer Goods and Light Marketing Equipment. As part of its F&B activities, it incorporated Clouet Trading in 1956 with its main food business: Ayam Brand™.

To cater to its expansion, Maison Denis actively invests in production and logistical capabilities. It has also engaged in joint ventures with companies such as Alce Nero to produce, market and distribute organic products across Asia. Maison Denis is deeply entrenched in Asian markets, owning and operating several distribution companies in the region.

OUR MISSION

It is our mission to be a one-stop F&B solution provider.

By providing one of the widest ranges of F&B ingredients in the market, we deliver solutions that help our F&B clients driving growth through product innovation and new menu implementation.

OUR PASSION

We are a passionate team committed to offering the best variety of products to Singapore's F&B scene.

With our eye for quality, you can be assured that our curated products are the best in their class. As we grow from strength to strength, we have forged robust partnerships with our suppliers, enabling us to access an even wider array of new and better products from tea and coffee to prepared and packaged food.

We are committed to Carbon Neutrality by 2040.

OUR SERVICES

Greyys provides one-stop F&B solutions by offering quality and sustainable end-to-end services. We help our clients grow through innovation and the creation of new F&B concepts.

We proudly offer a wide range of high-quality F&B ingredients from leading international brands such as Ronnefeldt Tea, Cafés Richard and Ayam Brand.

With facilities for both dry and cold warehousing, we ensure all products are securely stored to meet our customers' expectations and freshness requirements.

The Greyys team is dedicated to delivering exceptional service and maintaining the highest standards of excellence. Because here at Greyys, we believe that ***distribution shall always come with service.***

Vittel®

NATURAL MINERAL WATER *(GLASS BOTTLE)* | **750ML** | **12 PER CARTON**

NATURAL MINERAL WATER | **330ML** | **24 PER CARTON**

Beginning in the lush Vittel basin, home to thousands of plant and animal species, Vittel® **natural mineral water** travels deep underground, filtering through mineral-rich rocks unique to the region. Over many years, it naturally acquires its distinct mineral composition and deliciously balanced taste before being bottled at the source to preserve all its qualities. Refreshing both body and mind, Vittel® is the perfect companion for every moment.

PlantSwitch

Packing Green

PlantSwitch's mission is to replace all single-use plastic with plants. The proprietary technology upcycles agricultural residues into a plant-based resin that can be used to make nearly all types of plastic products. A low-cost, zero-waste, drop-in replacement to plastic is finally here.

TRADITIONAL PLASTIC

MILLIONS OF YEARS
Time it takes for petroleum to form

FEW MINUTES
Time plastic product is used

500 YEARS
Time it takes to decompose

PLANTSWITCH

4 MONTHS
Time it takes for plants to grow

FEW MINUTES

3-9 MONTHS
Time it takes to decompose

AFFORDABLE

Planswitch's resin is a "drop-in" solution to replace plastic and still be an affordable and sustainable alternative to replace plastic.

100% HOME COMPOSTABLE

PlantSwitch products are certified home compostable without the need for specialized equipment. The products will break down in as little as 8 weeks.

HIGH QUALITY

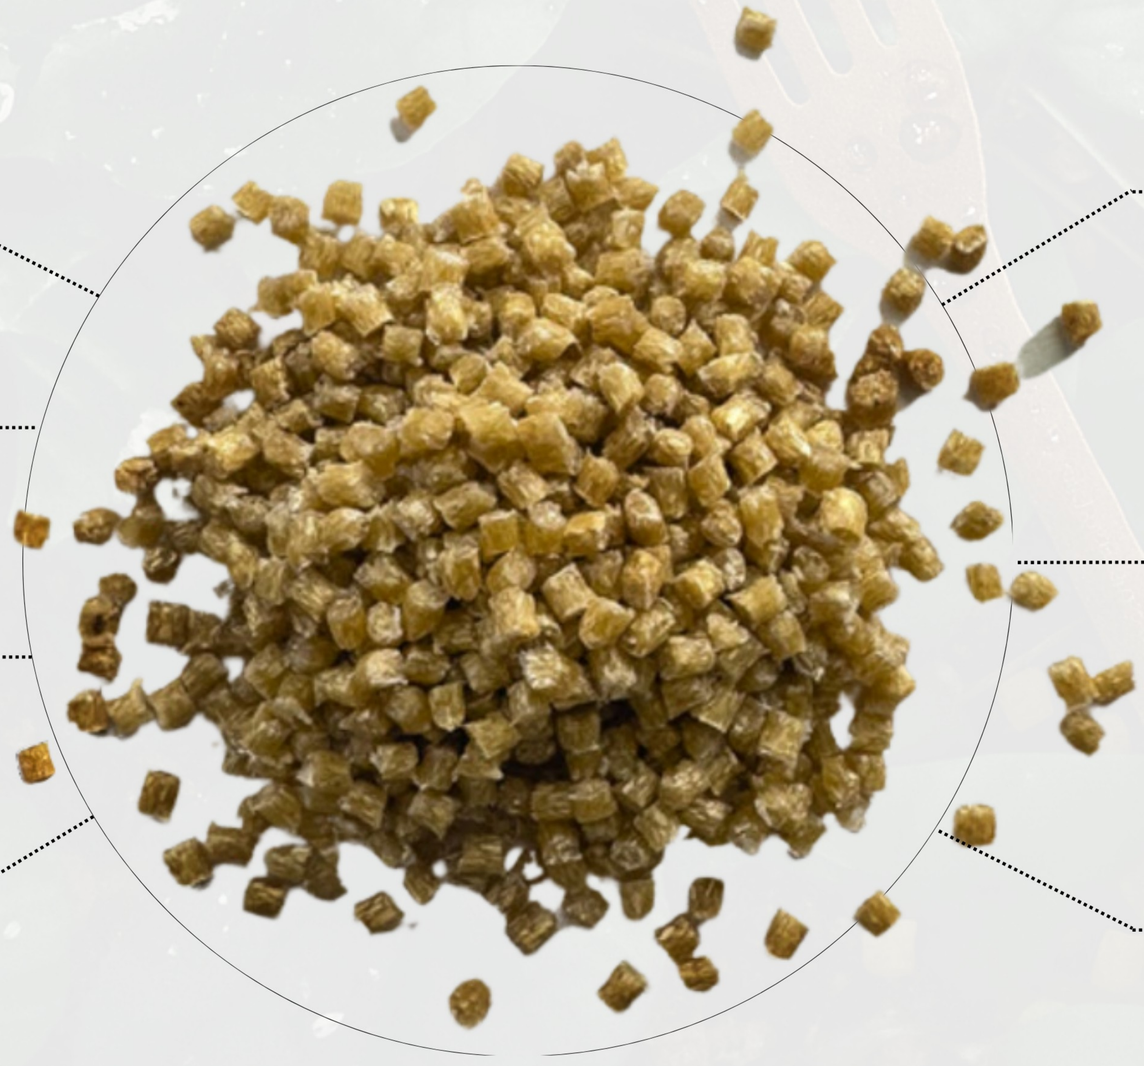
Designed with the consumer in mind, PlantSwitch products do not compromise on durability and performance

Cost-effective compared to other eco-friendly alternatives.

Seamless transition with minimal switching costs.

Superior strength outclassing standard biopolymers.

The feel of traditional plastics, minus the environmental guilt.



Upcycles agricultural waste, benefiting the food supply.

CompostZero: Safe for food, fully compostable at home without microplastic residues

Proudly made using local agricultural byproducts.
